Dear Sir:

In March of this year I notified your department of an unusual sighting and subsequent 8 mm movie films I made of this sighting. I was advised by your office to fill out a questionnaire sent me and to forward the questionnaire and film to your command for evaluation. I was further advised that my film would be returned to me along with a report on your findings. I filled out the questionnaire and mailed it and my film to you in May of this year. As of this date I have had no reply from you other than an answer to an inquiry I had made several months ago stating that 'Due to the number of unusual sightings being made there was a slight delay in the processing of my film'. Sir, I believe that six months is surely enough time for your people to examine the film I have sent you and while you may for some reason be reluctant to offer an explanation, (or unable to) I would greatly appreciate the return of my film.

I look forward to hear from you at your earliest possible convenience.

Dear Sir,

In May of this year I contacted your outfit regarding the sighting of several U F Os. Twenty five feet of 8mm color films were taken of the sighting and at your instructions I forwarded the film to you. I was told by you that after examining the pictures you would return them to me with the results of your investigation. As of this date I have heard nothing from you concerning either the sighting or the films. I am needless to say very much interested in finding out exactly what it was that I observed. I am also very much interested in having my films returned to me.

I would very much like to hear from you about the above mentioned at your earliest possible convenience. If it is at all possible I should also like to receive some enlargements of the pictures. Thanking you in advance for a speedy reply I remain

Truly yours,

[REDACTED]

Dear Mr. [REDACTED]

Reference your recent correspondence concerning your observation and subsequent film strip of an unidentified flying object (UFO).

Please excuse the delay in returning your film; however, our present heavy workload has precluded an early evaluation. The film has been submitted to the photo analysts and as yet, we have not received an answer.

I wish to assure you that upon completion of analysis we will return your film strip, along with our findings.

Thank you for your interest in our program.

Sincerely,

BARNETT B. YOUNG

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? 1ST OR 2ND	2. Time of day: <u>06</u> Hour <u>15</u> Minutes	
SUNDAY MARCH <u>1967</u> Day Month Year	(Circle One): <input checked="" type="radio"/> A.M. or P.M.	
3. Time Zone: (Circle One): <input checked="" type="radio"/> a. Eastern b. Central c. Mountain d. Pacific e. Other _____	(Circle One): <input checked="" type="radio"/> a. Daylight Saving <input checked="" type="radio"/> b. Standard	
4. Where were you when you saw the object? Nearest Postal Address <u>AVS</u>	City or Town <u>YONKERS</u>	State or County <u>NEW YORK</u>
5. How long was object in sight? (Total Duration)	<u>30</u> <u>45</u>	Hours Minutes Seconds
<input checked="" type="radio"/> a. Certain b. Fairly certain	c. Not very sure d. Just a guess	
5.1 How was time in sight determined?	<u>MY WATCH</u>	
5.2 Was object in sight continuously?	Yes <input checked="" type="checkbox"/>	No _____
6. What was the condition of the sky?		
DAY <input checked="" type="radio"/> a. Bright <u>DAWN</u> b. Cloudy	NIGHT a. Bright b. Cloudy	
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?	(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember	
SUN HAD NOT YET RISEN	IT ROSE TO MY LEFT AFTER SIGHTING	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

B.1 STARS (Circle One):

- a. None
 - b. A few
 - c. Many
 - d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
 - b. Dull moonlight
 - c. No moonlight – pitch dark
 - d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
 - b. Fog, mist, or light rain
 - c. Moderate or heavy rain
 - d. Snow
 - e. Don't remember

10. The object appeared: (Circle One);

- a. Solid
b. Transparent
 c. Vapor
d. As a liquid
 e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One):

- a. Fuzzy or blurred
- b. Like a bright star
- c. Sharply outlined
- d. Don't remember

e. Other _____

13. Did the object:

- a. Appear to stand still at any time?
 - b. Suddenly speed up and rush away at any time?
 - c. Break up into parts or explode?
 - d. Give off smoke?
 - e. Change brightness?
 - f. Change shape?
 - g. Flash or flicker?
 - h. Disappear and reappear?

(Circle One for each question)

14. Did the object disappear while you were watching it? If so, how?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved in front of:

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color METALLIC GREY

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/3 - 1/2

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

I SAW 4 OBJECTS, THE LARGER OF WHICH WAS

ON THE EXTREME LEFT. THE 3 SMALLER ONES APPEARED AS SILHOUETTES.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

OBJECTS HARDLY MOVED. THE ONLY MOTION
WAS A "WOBBLE" THAT THE LARGER OBJECT
MADE

29. IF there was MORE THAN ONE object, then how many were there? 4

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

THEY WERE NOT MOVING

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses

MRS

WHITE

YONKERS, N.Y.

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

?

MARCH

1962

TO DURRIGHT PATERSON

Day

Month

Year

AIR BASE IN DAYTON, OHIO.

34. Date you completed this questionnaire:

22 MAY 1967

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The dates I have filled in on this questionnaire are approximat. Exact date of sighting you will find in my original letter to you. As I mentioned in the letter I awoke early that particular Sunday morning and was standing on my terrace observing the skyline of the East and watching the sky get lighter as the sun was about to rise. I sighted the objects and observed them for about 1/2 hour. During this time I awoke my wife and she saw them and I also took about 20 feet of film (all I had at the time.) When the sun came up I could no longer see the objects because of the glare. The larger of the objects seemed to wobble a bit but that was the only motion that I could notice. As you view the film you will find the larger object is much clearer toward the end of film. I found that with my projector I saw the objects clearer when I made a smaller image. That is I had the projector rather close to the screen. Toward the beginning of the film you will notice all the objects (although very small) are in a straight line. The object on the far left is the one that appears to me to be larger and this is the one I concentrated on later in the film. The last few frames

of the films are of the sun rising.

I would greatly appreciate your letting me have an enlargement print of these objects when you return the film to me. I have no copies of these films and would like to have them returned to me.

I shall look forward to hearing from you in the near future.

Thank you,

P.S.

In answer to your question about my camera:

Foreign Technology Division
Wright - Patterson Air Force Base
Dayton , Ohio

Dear Sirs;

I would like to report seeing several unidentified flying objects sighted last Sunday (3/19/67) morning from 6:00 AM thru 6:45 Am. I live in Yonkers New York and made this sighting from my living room window which faces to the east toward Long Island Sound. The Objects appeared to be flying or floating just above the sound I would guess about 150 feet high. I hesitated reporting this to any one until the 8 mm movie film I took of the objects came back developed. To be honest I really wasn't sure myself after thinkkng about it all week. However the films did come back and the objects are definately there. I live on the 16th floor of a 19 story apartment building and although the objects were quite some distance away from me I did see them fairly clearly as my pictures will prove.

Kindly write me as to what you feel I should do with these films. I will in the meanwhile hold on to them until I hear from you.

Truly yours,

[REDACTED]
